Education

Vellore Institue of Technology

May 2019

Master of Computer Applications (CGPA: 9.00 / 10.00)

Vellore, Tamil Nadu

- **Relevant Coursework:** Data Structures and Algorithms (C), Cloud Computing, Operating Systems

Bikaner University

June 2017

Bachelor of Computer Applications (CGPA: 7.5.00 / 10.00)

Bikaner, Rajasthan

- **Relevant Coursework:** Web Development, C Programming, Computer Networks , Database Management Systems

Experience

Tata Consultancy Services

May 2022 – Nov 2022

System Engineer

Gurugram, Haryana

- Developed microservice to process customer data and send campaign messages on WhatsApp.
- Developed API to consume payment response and update the status to customer.
- Worked on resolving bugs/defects raised by testing team.

Infosys

Dec 2019 – Dec 2021

System Engineer

Pune, Maharashtra

- Involved in supporting Adobe's AEM based application for US based client.
- As part of production support team worked on resolving tickets raised by users.
- Worked on fixing application issues raised by business in a timely manner.

Amdocs

Jul 2019 – Dec 2019

System Engineer

Gurugram, Haryana

- Worked on fixing SQL injection vulnerability using input validation and prepared statements.
- Worked on improving code quality by resolving SonarQube vulnerabilities.

Projects

Contact Management System | Java 8, SpringBoot, Oracle DB, AWS

- Wrote backend for a contact management system in Java using SpringBoot. Create REST APIs to perform CRUD operations, added spring security using Auth0 and Swagger for documentation.
- Deployed the backend on AWS using Elastic Beanstalk service.

News Classification | Python, Anaconda, Django, Bootstrap CSS

- Built a system to crawl news articles from BBC website using a web crawler developed using python. The crawler crawls website and stores the news articles in database.
- Developed a classification model using logistic regression to classify news articles into respective categories and store it in database.
- Built a web app to display the news articles to user based on selected category.

Achievements

VITMEE : Obtained rank 180 in VIT entrance exam

Technical Skills

Languages: Java 8, Python, Go (Beginner), SQL

Technologies: Spring Boot, Git, Maven

Concepts: Operating System, API, Databases, Microservices
